THE following errata in page 107, have been pointed out by a correspondent.

Bottom of col. 1, for 92222 read 10222.

For 1st par. of col. 2, substitute the following:—"It is evident by a little attention, that the solver first reduced his shillings, pence, and farthings

to the fraction of a pound, and then multiplied his mixed number of pounds by itself; his answer is then in a fraction of pounds, which he reduces to pounds, shillings, pence, and farthings."

Dele 2nd and 3rd pars. of col. 2.

Middle of col. 2, for "four or five" read "three."
